

UCMHP Inaugural Conference

April 15-17, 2024
Davis Conference Center

Utah **Coalition** of
Mental Health Professions

A Place to Fortify, Educate, Connect, and Advocate

The Utah Coalition of Mental Health Professions (UCMHP) is a joint effort between the National Association of Social Workers–Utah Chapter, the Utah Mental Health Counselors Association, and the Utah Association for Marriage and Family Therapy.

The Utah Coalition of Mental Health Professions are united to build a stronger community, increase professional skills/knowledge, stand up for social justice, decrease barriers to behavioral health services, and advocate for inclusivity of all values, beliefs, experiences, worldviews, identities, and differences. We accomplish this through open communication, networking, educational experiences, and advocacy.

This inaugural conference is years in the making and will provide education and connection for approximately 1500 mental health professionals from across the state of Utah.
